KMOX Radio St. Louis - Fire Official Warns of New Hot Spot Near Bridgeton Radiation - 9/16/13 -

The fire department closest to the burning Bridgeton Landfill is keeping a close eye on a new hot spot near nuclear waste at the neighboring West Lake Landfill. <http://stlouis.cbslocal.com/2013/09/16/fire-official-warns-of-new-hot-spot-near-bridgeton-radiation/>

Iowa Farmer Today - Iowa DNR traces fish kill to two feedlots - 9/13/13 - Officials say a preliminary investigation into a fish kill in Northwest Iowa indicates manure runoff from two feedlots is to blame. The state Department of Natural Resources says manure-contaminated runoff went into the Little Rock River east of here in Lyon County during the Labor Day weekend.
